SUMMARY.

Software Developer skilled in Java, Spring Boot, and full-stack development with hands-on experience building scalable applications, desktop systems, and production-ready web platforms. Strong foundation in backend engineering, problem solving, and delivering clean, maintainable code. Experience includes enterprise-level projects, machine learning-based tools.

SKILLS

- **Languages:** Java, Python, SQL
- **Development:** Spring Boot, Servlet, JDBC, JPA, MySQL, SQLite, PostgreSQL, JavaFX, JSP, CSS, ReactJs (Basic)
- **Ecommerce Platform:** SAP Commerce Cloud (Basic)
- **DevOps & Testing:** Postman, GitHub, Maven, REST APIs, CI/CD (Bitbucket Pipelines, AWS CodeDeploy), Docker

EXPERIENCE

Software Engineer Intern

Indian Oil Corporation Limited

July 2024 - July 2024

Guwahati, Assam · On-site

- Developed a machine-learning-based stock prediction tool and interactive dashboard, improving investment decision-making efficiency by 40%.
- Simplified complex stock analysis workflows by providing real-time market insights, reducing manual analysis time by 55%.
- Utilized Python, Flask, Pandas, and JavaScript to build a dynamic and data-driven visualization platform, increasing data processing accuracy by 30%.
- Contributed to financial analytics innovation by streamlining stock performance evaluation, enhancing user accessibility by 45%.

Software Engineer Intern

Cybersync Technologies Private Limited

Nov 2024 - Dec 2024

India · Remote

- Conducted backend-focused development and debugging across multiple internal modules, resolving 50+ code issues, improving overall backend stability by 28%.
- Strengthened Java backend development by writing 2,000+ lines of clean, optimized code, enhancing code efficiency and maintainability by 35%.
- Completed 10+ backend engineering modules with a 95% success rate, boosting debugging speed by 40%.
- Gained strong hands-on exposure to backend architecture, increasing readiness for enterprise-level systems by 45%.

PROJECTS

Friendzon – Desktop Finance App | Spring Boot, JavaFX, SQLite, JPA, SMS API|

- Developed as a freelancing project for a registered private limited startup, the system manages 10,000+ finance records with 100% accurate transactions across Loan, EMI, Partner, Agent, and Payment modules.
- Engineered optimized pagination, query tuning, and export pipelines (PDF/Excel), reducing data-load time by 45% and improving report generation speed by 60% for daily finance operations.
- Implemented automated backup/restore and agent-wise audit tracking, ensuring zero data loss and increasing accountability and transparency by 70% in real-time financial workflows.

Library Management System | Java, Servlet, JSP, JDBC, MySQL, CSS | [Link](#)

- Built a scalable multi-role LMS handling 50,000+ book entries, optimizing search, issue/return, and inventory workflows to boost system throughput by 50%.
- Improved backend reliability through secure session handling and optimized JDBC queries, reducing peak-load latency by 35%.
- Designed theme-based responsive UI layouts for different user roles, improving navigation speed and task efficiency by 40%.

EcomStore – Ecommerce Web App | Java, Servlet, JSP, JDBC, MySQL, CSS | [Link](#)

- Engineered a role-based ecommerce platform supporting Admin, Seller, and Customer workflows, handling 500+ concurrent requests with optimized servlet controllers.
- Implemented secure cart, checkout, and order tracking flows with tuned SQL queries and caching, improving page-load performance by 40% and boosting stability under high traffic.
- Built custom UI themes per role, increasing user engagement and operational efficiency by 35% across the platform.

EDUCATION

Bachelor of Technology - Computer Science & Engineering

Guwahati, India

Assam down town University • GPA: 7.34 / 10

INVOLVEMENT

ADTU Gaming Club Member

Assam down town University • ADTU Robotics and Gaming Club

Sept 2023 – July 2024, India

- Actively contributed to the university's gaming community by organizing 10+ tournaments and engaging 500+ students across competitive and strategic gaming events, strengthening teamwork, event execution, and inter-department participation.
